Chapter 1

File Index

1.1 File List

Here is a list of all documented files with brief descriptions:

| | |
|---|---|
| QuickMotionDetector.h | |
| Header file for HawXeye's Quick Motion Detection engine | 3 |

Chapter 2

File Documentation

2.1 QuickMotionDetector.h File Reference

Header file for HawXeye's Quick Motion Detection engine.

```
#include <stdint.h>
```

Include dependency graph for QuickMotionDetector.h:

Functions

- `int32_t QuickMotionDetectorInitialize` (const char *configFileName)
Initialize Quick Motion Detection engine.
- `int32_t QuickMotionDetectorExecute` (bool *detected, unsigned char *frame, uint32_t width, uint32_t height)
Execute the core functionality of Quick Motion Detection.
- `int32_t QuickMotionDetectorDestroy` ()
Destroy Quick Motion Detection engine.

2.1.1 Detailed Description

Copyright

2.1.2 Function Documentation

2.1.2.1 int32_t QuickMotionDetectorDestroy ()

Returns

RETURN_SUCCESS upon successful execution, and RETURN_FAILURE upon failure.

2.1.2.2 int32_t QuickMotionDetectorExecute (bool * *detected*, unsigned char * *frame*, uint32_t *width*, uint32_t *height*)

This function performs object detection using the input 8-bit Y-component frame. Once an object is detected, this function will continue to return true.

Parameters

| | | |
|-----|-----------------|---|
| out | <i>detected</i> | TRUE if an object was detected. |
| in | <i>frame</i> | Y-component frame to run object detection on. |
| in | <i>width</i> | width of the frame in pixels. |
| in | <i>height</i> | height of the frame in pixels. |

Returns

RETURN_SUCCESS upon successful execution, and RETURN_FAILURE upon failure.

2.1.2.3 int32_t QuickMotionDetectorInitialize (const char * *configFileName*)

Parameters

| | | |
|----|-----------------------|---------------------------------------|
| in | <i>configFileName</i> | path to client configuration XML file |
|----|-----------------------|---------------------------------------|

Returns

RETURN_SUCCESS upon successful execution, and RETURN_FAILURE upon failure.
